8. ☒ Examiner's Statement of Reasons for Allowance
9. ☐ Other _____.

1. This action is in response to the amendment that was received on June 17, 2009. Claims 1-22 are pending.

Response to Amendment

2. The rejection of claims 1-22 under 35 U.S.C. 112, first paragraph, has been withdrawn in view of applicant's arguments that the term "bank of sources" provides support for "all of said sources are co-located with each other in said bank of sources" because "bank of sources" indicates that the sources associated with the bank are co-located as depicted in figures 1-5.

Allowable Subject Matter

3. The following is an examiner's statement of reasons for allowance:

The claimed invention is allowable over the art of record in view of applicant's arguments that Toy does not disclose or suggest that all of said sources are co-located with each other in said bank of sources because Toy's utility sources are located remotely from each other for all of Toy's embodiments. Applicant has argued vigorously that Toy's power feed, secondary main switchboard and UPS 1-4 are not a bank of sources including a first group of sources and a second group of sources, wherein all of said sources are co-located with each other in said bank of sources because Toy discloses that utility sources 110 are located remotely from one another. The examiner explicitly pointed to Toy's power feed, secondary main switchboard and UPS 1-4 as the

bank of sources in the non-final rejection of 12/22/2008 on page 4 in paragraph 8, element A)-3. The examiner explicitly stated that Toy's feeders terminate at the secondary main switchboards 340A and 340B and each of the switchboards supplies power to the system in the non-final rejection of 12/22/2008 on page 8 in paragraph 11 with regard to point A. In response to the office action of 12/22/2008, applicant has argued vigorously that Toy's utility sources are located remotely from each other for all of Toy's embodiments. Therefore, Toy does not anticipate that all of said sources are co-located with each other in said bank of sources. The examiner's understanding of applicant's argued position is that Toy's utility sources are the only "sources" corresponding to the claimed sources. Toy's feeders that terminate at the secondary main switchboards and the secondary main switchboards that supply power to system are not "sources" as recited in the claimed invention. Therefore, the claimed invention is allowable over the art of record in view of applicant's arguments that Toy does not disclose or suggest that all of said sources are co-located with each other in said bank of sources because Toy's utility sources correspond to the claimed "sources" and they are located remotely from each other for all of Toy's embodiments.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
